

Message From the Commander

Cdr Karl Naugle, P

Thank you from the bridge for allowing us to serve you and guide the club to a year of new and fun activities. Remember, it's your club and your involvement is what makes it fun for all of us. Boating is fun! Now, let's show Charleston how!

The main thrust of this year's bridge is to cruise into the 100th anniversary year with two goals: (1) grow the club and (2) have more fun sharing out experiences. We invite you to participate in all activities like the dinner meetings, cruises, joining a committee, helping at the Boat Show for 3-4 hours, participating in headquarters clean-up day, taking a course, participating in a workshop, or even inviting a friend to a meeting or two.

- We hope to exceed our record number of boat safety inspections this year. Last year we had over 100!
- We plan to continue our efforts in Cooperative Charting to keep our waters updated as developing and moving shoals. We are high in the national rankings for our efforts in this area.
- We are increasing the number of cruises to two each month. Some are short, some are long. All are fun! Join us whenever you can.
- Invite a friend to a meeting or two this year. We grow when they come and learn who and what we are all about.
